Inspiring Youth

Sponsorship of HAH
Cricket Tournament 2024

At Raah to Cure Foundation Trust, we strongly believe that sports are more than just games, they are a training ground for life. They nurture discipline, teamwork, and leadership while instilling resilience and confidence in young minds.

To carry forward this belief, we were honored to sponsor the 18th Hakeem Abdul Hameed Memorial Cricket Tournament – 2024, organized by BUMS Batch 2019 at SUMER, Jamia Hamdard. Our contribution went beyond financial assistance – we also provided essential first aid support to ensure the well-being of every participant.

The medical kits we supplied contained important items such as bandages, antiseptics, ice packs, and other emergency essentials for quick treatment of minor injuries. Additionally, we offered financial support to cover event expenses, making sure that the tournament remained open and inclusive for all students, regardless of their financial situation.

What made this event even more special was that RCFT's founding members themselves joined the field and played cricket alongside the students, encouraging their juniors and setting an example of sportsmanship and unity. Their active participation inspired the young players and strengthened the spirit of teamwork throughout the event.

The tournament turned out to be a tremendous success. Students displayed not only their cricketing skills but also sportsmanship, dedication, and teamwork. It was a powerful reminder that sports can bring people together, break barriers, and inspire the leaders of tomorrow.

At RCFT, we take pride in supporting such initiatives that help young people grow – both on and off the field.
